You can read all settings of keyboard shortcut using `ctrl+shift+p`
> Preferences: Open Default Keyboard Shortcuts (JSON). Some helpful shortcuts also can be found ([here](#))

- `alt + z`: toggle word warp for long text
- `ctrl + b`: toggle sidebar
- `ctrl + \`: split editor

Writing LaTeX

- Code Spell Checker
- Grammarly
- LaTeX Workshop

Version Control

- Git Graph
- GitLens

Others

- indent-rainbow
- Better Comments
